SUMMARY

Aspiring DevOps and Cloud Engineer with hands-on experience in CI/CD, Infrastructure as Code, and full-stack web development. Skilled in tools like Jenkins, Terraform, Docker, and cloud platforms like AWS and GCP. Passionate about automating workflows, building scalable systems, and learning cutting-edge technologies.

EDUCATION

Jamia Hamdard University <i>Bachelor's of computer applications</i>	New Delhi Oct. 2023 – Nov 2026
Hamdard Public School <i>Senior Secondary Education — Science Stream</i>	New Delhi Oct. 2021 – May 2023

TECHNICAL SKILLS

DevOps: linux,Docker,IAC(Terraform),Jenkins(CI/CD),Bash,Ansible,Kubernetes
Languages: Java,Python,C/C++,HCL,Groovy,YAML,MYSQL,HTML/CSS,
Frameworks: Django
Tools: Git,Github,Docker,VS Code,PyCharm
Cloud: Amazon Web Services,Google Cloud Platform

PROJECTS

Local-Mate <i>Python,Django,SQLITE, Docker,NGINX,Terraform,Git,DHTML</i> - Developed a full stack application with Django's in built Auth system. - Dockerised the whole application in multiple containers - Orchestrated Infrastructure as code using Terraform - Implemented Docker Networks to connect NGINX container to application to serve as a reverse proxy - implemented an end-to-end Devops automation pipeline using jenkins which decreased applications downtime by 90 percent and improved deployment frequency by 60 percent	July 2025– July 2025
Ansible Deployment <i>Ansible,Terraform,NGINX,AWS-EC2,Git</i> - Developed a static portfolio website using DHTML - Orchestrated the infrastructure using AWS GUI - installed required softwares using ansible from a master server to 3 different servers - Wrote ansible playbooks to run different softwares installed on servers and	May 2025 – May 2025
Infrastructure Orchestration <i>Terraform,AWS,Git</i> - designed and implemented multi environment setup - configured a development, staging and production environment using IAC - created and used a single terraform module to create multiple environment	May 2025 – May 2025
Django App ci/cd <i>Jenkins,Terraform,AWS,Git,</i> - Implemented CI/CD pipeline for a Django application using Jenkins to automate build, test, and deployment. - Provisioned cloud infrastructure with Terraform, including VPC, subnets, internet gateway, and security groups. - Deployed the application on institute-managed instances using Infrastructure as Code and automated workflows.	June 2025 – June 2025

EXPERIENCE

Google Student Ambassador <i>Jamia Hamdard</i> - finding ways to make my college colleagues use gemini. - Running a QR campaign in college to make aware of google AI - Designed and Deployed Google Student Ambassador website for my college Live Here!!	August 2025 – Present New Delhi
Delhi Police Hackathon <i>Jamia Hmadard</i> - Created a simple Dashboard for the state elections - Implemented DHTML to create a compelling Management console - See here!!	March 2024 – March 2024 New Delhi
