SUMMARY

Aspiring DevOps and Cloud Engineer with hands-on experience in CI/CD, Infrastructure as Code, and full-stack web development. Skilled in tools like Jenkins, Terraform, Docker, and cloud platforms like AWS and GCP. Passionate about automating workflows, building scalable systems, and learning cutting-edge technologies.

EDUCATION

Jamia Hamdard University

Bachelor's of Computer Applications

New Delhi

Oct. 2023 – Nov 2026

Hamdard Public School

Senior Secondary Education — Science Stream

New Delhi

Oct. 2021 – May 2023

TECHNICAL SKILLS

DevOps: Linux, Docker, IAC (Terraform), Jenkins (CI/CD), Bash, Ansible, Kubernetes

Languages: Java, Python, C/C++, HCL, Groovy, YAML, MySQL, HTML/CSS

Frameworks: Django

Tools: Git, GitHub, Docker, VS Code, PyCharm

Cloud: Amazon Web Services, Google Cloud Platform

PROJECTS

Local-Mate | *Python, Django, SQLite, Docker, NGINX, Terraform, Git, DHTML*

July 2025 – July 2025

- Developed a full-stack application with Django's built-in Auth system.
- Dockerized the application into multiple containers.
- Orchestrated infrastructure as code using Terraform.
- Implemented Docker networks to connect NGINX container as a reverse proxy.
- Implemented an end-to-end DevOps automation pipeline using Jenkins, reducing downtime by 90% and improving deployment frequency by 60%.

Ansible Deployment | *Ansible, Terraform, NGINX, AWS EC2, Git*

May 2025 – May 2025

- Developed a static portfolio website using DHTML.
- Orchestrated infrastructure using AWS GUI.
- Installed required software using Ansible from a master server to 3 different servers.
- Wrote Ansible playbooks to automate software installation and configuration across servers.

Infrastructure Orchestration | *Terraform, AWS, Git*

May 2025 – May 2025

- Designed and implemented a multi-environment setup.
- Configured development, staging, and production environments using IaC.
- Created and reused a single Terraform module to deploy multiple environments.

Django App CI/CD | *Jenkins, Terraform, AWS, Git*

June 2025 – June 2025

- Implemented CI/CD pipeline for a Django application using Jenkins to automate build, test, and deployment.
- Provisioned cloud infrastructure with Terraform, including VPC, subnets, internet gateway, and security groups.
- Deployed the application on institute-managed instances using Infrastructure as Code and automated workflows.

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Foundations Associate

September 2025

- [Link Here!!](#)

Oracle Cloud Infrastructure 2025 Multicloud Architect Professional

October 2025

- [Link Here!!](#)

Deploy Kubernetes Applications on Google Cloud Skill Badge

June 2025

- [Link Here!!](#)

Build Infrastructure with Terraform on Google Cloud Skill Badge

June 2025

EXTRA CURRICULUM

Google Student Ambassador

August 2025 – Present

Jamia Hamdard

New Delhi

- Running a QR campaign in college to raise awareness about Google AI.
- Designed and deployed Google Student Ambassador website for my college (Live Here!!).

Delhi Police Hackathon

March 2024 – March 2024

Jamia Hamdard

New Delhi

- Implemented DHTML to create a compelling management console.
- See Here!!
